

2022 Hudson Valley Garlic Festival

Saugerties – Ulster County – New York

Dear Vendors:

The Ulster County Legislature has demonstrated their commitment to environmental stewardship. In 2015 the County created Local Law No. 4 to Ban Polystyrene. November 2019 Local Law No 2 “Skip the Straw Act” was passed to eliminate the use of plastic straws and “BYOBAG Act” to ban the use of plastic bags in specific applications. And, on November 19, 2019 the Ulster County Legislature approved Resolution 451, the Ulster County Zero Waste Community Resolution. Continuing the County’s path to sustainability, on November 19, 2021 The Food Waste Prevention and Recovery Resolution No. 462 was approved.

Thank you for participating in the Hudson Valley Garlic Festival. We have established a goal of diverting 85-90 percent of the waste generated at the festival from landfills and incinerators. This will be accomplished by including disposable items with the food waste. We are providing a list of disposable materials that have been carefully chosen to not only be compostable but are also safe for the environment. Not all products labeled “compostable” are 100% degradable – and in fact are a blend of compostable PLA (poly lactic acid) and regular recycled plastic. The PLA is good, it’s a vegetable-based plastic resin made from corn. The “recycled material” is petroleum-based plastics, not good. Many products labeled “compostable” are PLA coated with a petroleum based recycled plastic.

Attached is a list of acceptable compostable disposables. You are welcome to research for other items, but please communicate with us if you want to substitute. We’ll work with you to quickly determine if this is an acceptable item. Call us at 845-656-6071, or email at greenway777@aol.com. We have carefully chosen a list of products that are not only compostable but are also safe for the environment.

Some guidelines for vendors at a ZERO WASTE festival:

- Condiments **cannot** be single-serving packets. All ketchup, mustard, mayo, etc. must be dispensed in bulk. (suggest gallon pump bottles or similar)
- Milk and creamers **cannot** be single-serving. Also, must be dispensed in bulk, or “community” milk cartons.
- Paper sugar packets **can** be used. (Sugar, Splenda, Equal, etc.). They can go in with the food waste
- No foil or plastic wrapped products are acceptable.

By instituting these practices, we are able to achieve a clean sort:

- Food waste and compostable disposables will be composted
- Cans, plastic bottles, and glass will be recovered for recycling
- Cardboard will be recovered for recycling

FOOD WASTE COLLECTION

YES – O.K. TO PUT IN FOOD WASTE

- Vegetables / Fruit
- Meat
- Bones
- Coffee Grinds
- Tea Bags
- Paper towel
- Paper napkins
- Compostable Disposables
- Soiled Cardboard

USED COOKING OIL:

- Put in sealed containers for pick up with food waste

NO – DO NOT PUT IN FOOD WASTE

- Plastic (film, bottles, bags, gloves, cups, cutlery)
- Milk cartons (foil lined, plastic coated, etc.)
- Glass
- Newspaper, Office Paper, Corrugated
- Steel
- Aluminum (cans, foil, etc.)
- Batteries
- Personal Hygiene Products
